COMPANY PROFILE

INTEGRA TEAM FOR SAFETY

Boosting Confidence

Integra Team Est. was established in April 2015, to provide a full range of low current systems from design and installation till ongoing maintenance and service in Kingdom of Saudi Arabia.

Our services are designed to meet both the immediate and long-term needs of our clients and are customized to take into account their business model as well as budget.

VISION

Become the customer's first choice integrator

MISSION

Build the trust with the client and supplier

CORE VALUES

Build the trust with the client and supplier

**“ WHETHER YOUR REQUIREMENTS ARE CCTV, ACCESS CONTROL OR AN
INTEGRATED SYSTEMS APPROACH TO SECURITY, SAFETY, OR MONITORING, WE
WILL WORK WITH YOU TO GET IT RIGHT “**

CCTV

The Company's policy is to select only the best suitable equipment for any specific requirements. Integra team are certified partner with the suppliers of the most advanced Closed Circuit Camera equipment in the world and install, supply and commission CCTV Systems for a wide variety of clients. Integra team systems include full integration with access management systems, with matrix switchers, multiplexers and digital recording based platforms. These systems can be installed for Shopping Centers, Factories and many other Commercial and Governmental installations.

ACCESS CONTROL

Access Control Systems can be stand alone or PC based, with proximity and Smart Card readers. The Company installs a variety of Access Control Systems from small solutions to enterprise solution, major systems for private and public properties. Integra team can provide a system to control all aspects of personnel movement. The recording of transactions through doors, gates, turnstiles or elevators is easily accomplished.

INTRUDER SYSTEMS

Intruder Alarm Systems are designed to protect both people and premises. Systems are configured to provide security when buildings are occupied or empty by detecting unwanted intrusion within or at the boundaries of the protected areas. In the event of an alarm condition an audible and visual warning will be initiated together with an SMS to be send to appointed person.

MAINTENANCE

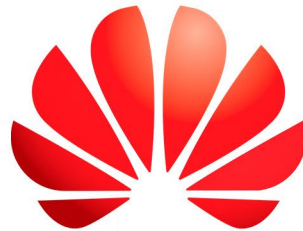

Integra team can arrange service and maintenance agreements which are individually tailored to meet the requirements of each client. All Integra team technicians have mobile communications with our head office and can be dispatched without delay. Integra team maintains an extensive spare parts inventory to ensure, that in the unusual event of component failure, our customers don't suffer any considerable down time. This contingency allows for the immediate replacement of any failed system component. Our team have the knowledge and equipment to enable them to service and maintain all products we deliver.
